

ePremium eDeposit

Now that you've chosen your new home, save money upon move-in with ePremium eDeposit.

How ePremium eDeposit Works

In order to move into your new home, you are required to pay a security deposit. Instead of paying the full security deposit, you can purchase a security deposit alternative through ePremium eDeposit. This will fulfill your security deposit requirement.

Let's say your community charges a security deposit of \$1,000. Instead of paying the full security deposit, you can purchase ePremium eDeposit protection for just \$250. Upon move-out, you will not receive the \$250 back as a refund, but you saved \$750 in move-in costs.

ePremium eDeposit is a Security Deposit Alternative

ePremium eDeposit allows you to move into your new home at a lower cost while providing protection for damages you cause to your new home up to your protection limit. You will be responsible for any additional monies that exceed your protection limit. ePremium eDeposit coverage is good for the duration of your lease, up to five (5) years.

ePremium eDeposit is NOT Refundable

Unlike a traditional security deposit that is refundable upon move-out, the purchase of ePremium eDeposit is non-refundable.

ePremium eDeposit is Optional

It is your choice to pay either the full security deposit to your property manager or purchase ePremium eDeposit. The price of ePremium eDeposit coverage will vary based on your community and the coverage limit purchased. Before you can purchase ePremium eDeposit, you must first purchase an ePremium RENTERS or ePremium PROTECT insurance product.
